

More standing room with added safety in new midi-bus from Transbus

Transbus chooses [Altro Transflor](#) for greater safety in the new Enviro 200 launched at Coach & Bus 2003.

Greater standing room at the rear of vehicle has highlighted the need for underfoot safety, in this new concept vehicle.

[Altro Transflor](#) offered a [proven solution](#) to the new Enviro200 to ensure the safe travel of passengers.

The new Enviro200 has been designed with many other safety features including a 'step free' low floor throughout the vehicle; wide aisles with front wheelchair access; passenger access at the rear as well as the front of the vehicle.

Find out about our two new colour ranges...

[Altro Transflor Meta](#)

John Fleming, Chairman at TransBus International Guildford explains 'The Enviro200 is a small revolution in more ways than one. It is a completely new concept, designed from a clean sheet with capacity to carry up to 25% more passengers'

[Altro Transflor Cyrano, new aluminium step nosing](#) is available in two finishes; milled and anodised. It's special design clamps the flooring material in position to stop penetration of moisture and lifting at edges of vehicle steps. [more...](#)

[50 Years of Innovation](#)
In 1954 Altro invented the concept of safety flooring as we know it today, since then, Altro have consistently improved their products to offer an unrivalled range. [more...](#)

Altro Transflor [FloorMaker™](#)

[FloorMaker](#) makes it possible to work directly on screen with all 51 colours from Paint Box. The programme is accessible from www.altrotransflor.com and allows the creation of customised flooring colour schemes for vehicles' interiors.

Ideal for corporate livery work, interior colours and patterns, [FloorMaker](#) creates a personalised colour swatch which once inserted inside models of road and rail vehicles or sea vessels, gives a 3 dimensional representation of a vehicle's interior on-screen.

[FloorMaker](#) is simple to use and intended to assist our customers who work with passenger transport interior design, colour, marketing, research, communication and the creation of environments in public transport all over the world.
